Invitation

We are pleased to invite you to attend on The Thirteenth International Conference on Information Management (ICIM) in business process re-engineering, outsourcing (BPR, BPO) and decision making, organized by University of Gdańsk, Department of Information Systems in Gdańsk under the auspices of the Ministry of Science and Higher Education.

The Conference purpose is to provide participants with an opportunity to present new systems, methods, techniques and tools for information management and their applications in business processes and decision making. The conference will focus on new systems, methods, techniques and tools for re-designing decision making processes, business processes and structures. The Conference organizers will provide an open forum for exchanging views and new achievements between specialists from all over world and those who require knowledge of process transformation in the economy.

The Conference scope includes all areas of IM and related technologies. Sample areas include, but are not limited to the following:

Data–information–knowledge based cycle,
Information and processes modeling,
Business Process Re-engineering,
Business Process Outsourcing,
IT Governance,
Databases, Data Warehouses, Document Warehouses,
Analysis and Systems Development,
Business Information Systems,
Decision Support Systems,
